ABSTRACTED-PUB-NO: WO2004022886A

BASIC-ABSTRACT:

NOVELTY - The system has a base area on which tables (7) and chairs (8) are placed. Wedges (1) are located at a bottom, central or independent heating system and a heat installation distributes and circulates heat. A heat

isolated water proof cover (10) wraps all components and posts to provide tightness to the cover. A zipper (12) allows people to enter and exit the system and sleeves (14) allow arms to be let out.

USE - Used for enabling people to stay, sit, eat and drink in outdoors e.g. gardens of restaurant and cafe, and natural surroundings in cold and rainy weather.

ADVANTAGE - All kinds of fuel and resources of energy can be utilized in heating the system, and hence this system can be used in any country. The heat isolated cover used in the system is available for placing logos to utilize the system for advertising, thereby providing a source of income to the entities using it.

DESCRIPTION OF DRAWING(S) - The drawing shows a centrally heated mobile system with cover and interior details.

Wedges 1

Tables 7

Chairs 8

Cover 10

Zipper 12

Sleeves 14
